The agitation in Ireland inspires very serious fears.

London, 26th

Plenary Assembly of Boers of Transvaal has refused to approve Treaty with England. They want complete civil and religious liberty. This news has created a very bad impression here, as England can make no further concessions.

Vienna 27th.

Hungarian Reichstag opened yesterday at Buda-Pesth. Nothing important in speech from Throne. Good foreign relations: other matters purely national.

THE RURAL EXHIBITION.

MACHINE DEPARTMENT.

One of the most striking departments of the Palermo Building is the aisle containing machinery. From one cause or another in the Argentine Republic we attach more importance to iron-wrought works than to any other fabric. Only a few years ago the machines in the Republic might be counted, and the arrival of a steam-engine was quite an unusual event. To-day the Lamport and Holt steamers arriving weekly with hundreds of packages of machinery for the Interior provinces seem to be much more appreciated than in Buenos Aires, owing to the variety of productions. The progress of this country grows with every new machine introduced whether it be for agricultural, mining or distilling purposes. The wealthiest nations in the world are France, England and the United States — all machinery-producing countries: besides being the wealthiest, they are at the head of modern civilization and progress, and verily, we cannot imagine any greater progress than that which successfully supplants the work of man, and, in many cases, is an improvement on same. At the rate the machine development is advancing we may look forward, perhaps, to the day when in Buenos Aires steam will drive our tramways compressed air will supplant the horse, and automatons wil lattend to our domestic service and gardening. Although we have not yet arrived at the latter stage, we may fairly state that the machinery in this Republic is in its infancy, compared with other more advanced countries; and, furthermore, there is room for one hundred times more machines and skilled labour. The latter quality is wanting in the population, and it is mainly limited to the foreign element in the country. At all events, the Rural Exhibition has been an agreeable surprise to all, and we could not help admiring the polished steel and progressive look the iron lent to the surroundings: one naturally thought of increased production of wheat, sugar, minerals &c. None more than Argentines seemed to be interestsd in study ing their details, and it is evident that theoretically, at least, many understand the complicated details There is a special interest about a boiler, a piston, a cylinder, crown-cog, level wheels and pinions, that is very different from what one feels when glancing at the horses from Santa Fe or Buenos Aires: the former is an essentially human progress, the work of man's own hand.

Messrs. Drysdale and Co. have one wing of the building occupied with their renowned Wood's Harvesting Machines, which attract the attention of crowds of farmers, estancieros and chacareros. The following is the list of the machines which attract most notice:—

Two-horse Enclosed-gear Mower.
Sweep-Rake Reaper, 'senior.'
Mowing Attachment (for either size of reaper.)
Chain-Rake Reaper.
Twine Self-binding Harvester.
Seeder (sows all kinds of seeds.)

The Self-binding Harvester was set in motion, and the admirable facility with which it gathered up the straw and tied it with twine, showed the perfection of the machine. We learned from one of Mr. Drysdale's clerks that there are now 1,500 of these machines working throughout the country. There are 17 in the Russian colony and 44 ordered by the farmers in Azul. They cost on an average $10,000 each. The Wood's 'Seeder' is another wonderful machine; it can be set to sow the seed from 2 arrobes to 10 arrobes the square, and by means of the clock-work it tells the amount of work it does every day. Ite cost is $3,500 m/c. The Two-horse Mower will mow three squares of altalfa in a day. It costs $4,500 m/c.

In the opposite wing of this building we find a beautiful model of a Sugar Mill, from the great establishment of Messrs. Fawcett, Preston and Co., England, who have supplied many of our sugar plantations in the provinces with their excellent machinery, put up under the superintendence of Mr. W. J. Hill, consulting engineer, and who is at present in Misiones putting up a new sugar mill there. Messrs. Runciman and Co. are the representatives of the firm here. Alongside is a double plough, made by two colonists in the Esperanza Colony, Santa Fe; it shows the ingenuity and industry of some of those colonists; and besides this double plough there are splendid samples of steel wire, &c., from the renowned Creuzot Fabrica. Mr. La Forgues is the agent in the River Plate.

In the centre of this hall is the Colombo Harvesting Machine, which is also manufactured in this country, and comes from Chivilcoy. This machine is hired out at the low charge of $100 per square, for cutting wheat in the harvest time.

The rest of the wing is occupied by Messrs. Forrester, and Co, whose magnificant steam engines, machines, &c., from the great fabrica of Messrs Ruston, Proctor and Co. are one of the chief attractions of the Exhibition.

A beautiful portable steam engine.
Vertical and horizontal engine.
Fixed and movable engines.
Hand mills for wheat and maize.
Mowers,
Circular saws.
And a splendid lathe.

These and innumerable other articles show the keen attention which Messrs Forrester and Co. pay to the progress of the country—for progress, it must be remembered, meets wants. We invite all our readers to inspect the beautiful sewing machine, worked by water power, the neatest invention of the age, with a little indiarubber tube and a diminutive water pot; this sewing machine can be kept sewing night and day, and the shareholders of the Southern Railway would be well pleased could they see the beautiful Azul marble chimney-pieces which are lined in front of the little water-pot sewing machine. The silk gin worked by two women attracts much notice, and the day may yet come when, like the Wood's Reapers, thousands of these silk gins will be working through the country.

Messrs Jorge Guntsche and Son exhibit saddles and harness really a credit to the country; the harness seems as good as the most costly brought from England.

Handy wheat and maize mill for estancieros, exhibited by Messrs J. Mohr Bell and Co, meet a great want in the camp; they should be in use at every puesto, just as much as Ward and Payne's splendid sheep shears, of which Messrs J Mohr Bell have placed the most attractive samples.

All were astonished to see the fine machines made in the country by Messrs Schwartz and Co.: this is one of the most welcome surprises these columns record for many years, and Messrs Schwartz deserve a gold medal for their enterprise. not long ago we called attention to their new safes. The engine in question has eighteen-horse power: it is vertical and with double piston. The engine is intended for a steam launch; it shows how enterprise is secretly stealing a march on us, since very few would have credited the fact had they not witnessed it with their own eyes. Mr F Marty, of Calle Rivadavia, follows in the wake of Messrs Schwartz, and produces some very fine exhibits, which show a particular Frenchly finish about them.

One machine excited particular attention; it may be called a gas motor, of the Muller make, and exhibited by Messrs Mohr Bell & Co. It bears a classical name, the Alpha: perhaps because the system is the first of the kind and the forerunner of many others. Besides the interest one naturally feels in the study of mechanism, a special curiosity is centred in the gas producing apparatus, a riddle not easily solved and calling for experiment in order to well comprehend same. The engine is small and specially adapted for the long distances that have to be traversed in the Republic, giving much less trouble in their transport than other heavy machines; one of these gas machines light up Mr Emilio Fernandez's quinta at the Tigre. Such exhibits do a world of good to the country, and we sincerely hope that the many wealthy proprietors in the Republic will take heed of the warning and advice these iron machines give in a mute and eloquent manner. They are the engines of progress, but they need men of progress and men of money. The progress of the country is to a great extent embodied in their enterprise, and well-wishers to the Republic look forward with hope to a change in the large estancias: the enterprise in improving the breeds of sheep, cattle and horses, should not stop there: let every estancia have its machines. But this looks like preaching in the desert; the iron hand of necessity must work out reform, and this may come before many expect it. It would seem as preposterous to preach for the appliance of machinery as for the establishment of a dairy in a country where there are millions of cows and only a few thousand milch ones, in provinces where the soil is most prolific and there are no vegetables on the many estancias. Thus, in some branches of industry the country makes gigantic strides, whilst it remains stationary in others; but meantime it is a pleasure to point out the development of machinery, closely linked with that of cereals, sugar, wine, tobacco etc., in the interior provinces. Every machine tends to develop our resources in a geometrical progression, and well may we hail their presence in the Exhibition as guarantee of our wealth and prosperity.

POPULATION, INDUSTRY AND WEALTH.

To the Editor of the *Economist*.

Sir,

The census recently taken suggests the idea of comparing the population, industry, and wealth of the United Kingdom at the close of the last three decades, to ascertain if there be any foundation for the vague rumours afloat—that this country is losing ground. It will be sufficient for this purpose to take the Parliamentary returns on the following six heads—

	1860	1870
Population....	28,778,400	31,205,400
Iron (pig), tons	3,827,000	5,963,000
Coal..... do	80,043,000	110,431,000
Cotton consump tion..... lbs	1,141,000,000	1,101,000,000
Exp. (British) £	135,890,000	199,640,000
Assessed inc.. £	335,188,000	444,920,000

SUTTON'S Famous Home-Grown Seeds 'SPECIAL' collections of Vegetables and Flowers. Choisest Assortment. Sole Agents MOORE & TUDOR, 93 Maipu

	1880
Population	34,468,500
Iron (pig) tons	7,020,000
Coal do.	147,200,000
Cotton consumption.. lbs	1,404,000,000
Exports (British) £	223,060,000
Assessed incomes £	578,046,000

The increase in every item of industry and wealth has been far superior to that in population, showing most indisputably that our people are becoming rich and more productive in every decade, in spite of the common impression, and excepting always the agricultural interests, the loss in the latter being just balanced by the growth of our shipping. In order, meantime, to understand more clearly the development of our mineral, manufacturing, commercial and monetary interests, it may be well to give the ratio 'per inhabitant' at the above epochs, viz—

	1860	1870
Iron lbs	295	427
Coal cwts	55	71
Cotton lbs	39	36
Exports value	9/	12s/
Assessed incomes	11/ 12 8	14/ 5/2
Savings bank deposits	28/	34/

	1880
Iron lbs	445
Coal cwts	85
Cotton lbs	42
Exports value	130/
Assessed incomes	16/ 16/1
Savings bank deposits..	46/

Thus there has been a general improvement, amounting to 16 per cent since 1870, and 42 per cent since 1860. And, although our income from agricultural and pastoral industries, taken together, has declined 20 millions sterling in the last ten years, it is fully compensated by our maritime carrying trade, viz—

	1860	1870
Tons carried	12,600,000	30,300,000
Ratio per inhabitant..	0·43	0·97

	1880
Tons carried	52,200,000
Ratio per inhabitant.	1·61

In fact, the industrial activity and wealth of the United Kingdom present a very favourable picture, and if we have to work for smaller profits than before, it is because other nations are now enabled to compete with us by reason of the facilities that we ourselves have given them in an improved carrying trade. We have built railways in many countries, and marked out numberless new routes on sea, thereby deriving great profit in one respect, but enabling our neighbours also to send their merchandise to the best market. If we sum up the export trade of the principal countries during the past twenty years, except Germany's for which returns are wanting, and compare the average with the returns for 1880, or 1879 where no later are published, we shall find the result as follows—

	Average Exports, 1861-1880	1880	Increase
	£	£	o/o
Great Britain..	193,100,000	223,060,000	16
France	125,200,000	131,040,000	6
Italy	34,430,000	43,170,000	25
Austria	43,600,000	59,900,000	37
Holland	35,100,000	48,220,000	37
Belgium	33,600,000	47,600,000	42
Russia	40,650,000	61,820,000	53
	505,680,000	614,810,000	22

These figures are by no means discouraging, for it is needless to say that everybody knows how difficult it is to keep up a high ratio of increase on large amounts, as in the case of Great Britain. Moreover, Italy and Austria having entered on a period of commercial 'renaissance' after their long troubles, it is not surprising that they have risen rapidly in products. The decay of French trade is so remarkable that it may afford a lesson to other nations; and the decline continues, for while our exports for the first half year of 1881 show an increase of two millions, those of France have fallen three millions sterling, viz—

	Half-Year June 1880	Half-Year June 1881
	£	£
British exports	107,613,000	109,308,000
French exports	67,210,000	64,120,000
Excess of British.	40,423,000	45,188,000

It would be manifestly unfair to compare the relative increase of exports in the United States since 1860 with that which we have had in the United Kingdom. The enormous increase of population, coupled with the revival after the war, place that country in such favourable circumstances as may be considered exceptional. Still, it may be well to remind grumblers in England that the value of our exports, per inhabitant, is double that of the United States; the ratio for the latter country was 67 shillings per inhabitant in 1880, and a century may elapse before it reaches the present ratio for Great Britain.

The present rumours of England's decline are about as well founded as the speeches in Parliament in 1819, on the 'impending collapse of the British Empire, because the National Debt was more than all the gold coin in existence.'

LETTER OF U. S. MINISTER, THOMAS O. OSBORN.

Buenos, Ayres, Sept. 26th.

To Señor Don Juan Carlos Gomez,
President of the Buenos Ayres Press demonstration.

Dear Sir,

For your beautiful and touching address, as the President of the Committee of the Press of B. Ayres and for the solemn but grand manifestation of yesterday, in honour of the memory of the late President Garfield, of the United States, and so expressive of sorrow and sympathy for the loss of her first citizen, please accept, for your Committee, my profound gratitude as well as that of my countrymen residing in this city; and be assured that my Government will know, and, with all her people, will appreciate the delicate tenderness with which the citizens of this Republic express their sorrow and sympathy for a sister Republic in her hour of grief. I desire, Mr President, to express to you my thanks, and, through you, to your Committee—the Representatives of the Press—and to the societies, clubs and individuals who joined in the solemn procession and who, either personally or by letter, gave such delicate attentions to this Legation during those days of sorrow.

Please accept the assurances of my kindest regards and highest consideration.

Thomas O. Osborn.

EDITOR'S TABLE

Sunday was rather a lively day in town, although the weather was dark and dull. The emancipated 'assistants' swarmed everywhere, in the streets, the cafes, the beer halls, at the Italian fetes; and not a few hired Rocinantes for the day and rode forth to witch the world. At the Cafe Argentino, the elders of the 'gremio', all fine young lads of about 20, held a meeting at which energetic speeches were made and it was resolved to 'Boycott' those employers who resisted the Sunday closing, and leave them without any assistants at all. It was really something wonderful to see the ease and fluency with which these young men delivered their speeches: they were read, of course, but even in our best 'orators' this is tolerated in this country, and the 'dependientes' who spoke on Sunday were probably quite up to the mark of the average Congressman or Provincial legislator at their age. The 'Shopkeepers' Committee also held a meeting and drew in their horns considerably, as they see they have lost the battle. Their assumption that the Municipality want to force people to go to church on Sunday is most childish and illogical rubbish. The Municipal edict was in general obeyed, but here and there there was a bootmaker's or 'tendero's' door left ajar. We are glad to record that the police acted with great firmness on the occasion, and those who were fined yesterday will probably not offend again next Sunday. The great majority of the retail traders of the city are in favour of the Sunday closing movement, and we hope the Municipality of the Capital of the Republic will show a firm front to the 'noisy few patrones' who want to keep up the old shameful order of things. By the way, the Western Railway Board showed the people a nice example of obedience to the law by having navvies at work all the morning on the earthworks at the Once Station.

In connection with the Sunday Closing movement, we had a visit yesterday from the highly esteemed Scotch Chaplain, the Rev. James Smith, who requests us to convey to the President and members of the Municipality his own and his parishioners' warmest thanks for their efforts to lessen the desecration of the Sabbath in the capital of the Republic. We gladly comply with his request.

We are requested by the Hon. Secretary of the British Hospital to state that, owing to the non-receipt of the special report regarding the present site of the Hospital building, it has been found necessary to postpone the discussion on the resolution proposed by Mr. Tucker, which should have taken place today at the British Consulate.

There was a bewildering lot of news, gossip, rumours and everything newspapers like going, yesterday morning. The imprisoned editors are said to have passed a jolly Sunday, and they had a High Tea at 8 p.m., the wherewith being supplied by Mrs Eduarda Garcia, the talented authoress, who sent them a fat turkey, boiled in Madeira wine: Messrs. Hammer and Peltzer, who sent them a barrel of beer; and Mr. Bercetche, who presented them with an arrobe of pic-nic biscuits. Such marks of public sympathy are cheap at 20 days' imprisonment, and in the next row with Congress we'll try and get locked up with our confreres. All our Patai cake is gone, or we would send them some.

The *Patria Argentina* heads its leaders about the Sunday Closing movement with a cut of a formidable looking blunderbuss, on full cock, and which we suppose is loaded to the muzzle. Oh! colleague, your talented Chief's letters from Rhineland were much nicer reading.

The Montevidean telegrams say that the Spanish residents there had a tremendous to-do on Sunday on the Prado; all the townthere, and no end of fun. We never remember so much going on in the flag and firework line on both sides of the Plate as now. Hardly a week passes without some of the Latin nationalities having a fete of some kind. It shows prosperity and money in both pockets.

The latest about Colonel Latorre is that he is up the river, in Entre Rios. There is something up, as the Montevidean Government is arming steamers and sending troops to the frontier and the rivers.

We heard of a rather curious case last week. A Chivilcoy estanciero went to Mercedes to draw out a deposit he had in the Provincial Bank at the latter place, but he was coolly informed that he could not get his cash till the end of the month, as the Bank always took from the 24th to the end of the month to make up its books and could not have its balances disturbed!! This is the funniest system of banking we have ever heard or even dreamt of, but we have the information on the most reliable authority.

There was a very large congregation at the Scotch Church on Sunday last, as it was Communion Day. People came into town from all surrounding districts, and the church could not hold a soul more. The Rev. J W Fleming will preach on Sunday next at noon, at the Cabaña district of Canuelas.

The next Competition Meeting of our young friends of the Junior Athletic Society will be held on or about the 1st of November. The Committee cannot fix on a date as yet, as they find some difficulty in getting ground, but they hope to overcome it soon and will invest in a Eureka! advertizement when they have done so.

The Cattle Show at Palermo was crowded on Sunday. Three military bands were in attendance, the machinery department attracting great attention. This is, all considered, the best Show the Rural Society has held yet.

The Progreso ball on Saturday night wasn't a 'circumstance' compared with some of its byegone victories. High Life is getting corns from too much dancing. It was nearly 1 o'clock on Sunday morning when Terpsychore got into full swing. Our lively colleague *El Diario* was there, and says that the Banda Oriental beauties beat the Porteñas hollow, but many of the latter were absent.

Mdlle. Gregoire played Mrs. Angot's 'fille' on Sunday, at the Colon Theatre, and did it splendidly, although she had only a few hours notice to prepare, Paola Marie having fallen ill suddenly. She was repeatedly applauded.

The repetition of Ultimo by the Concordia Club amateurs on Saturday night was a brilliant success. The house was crammed and the acting magnificent.

The *Prensa* has a telegram from Mercedes that Mr. Thomas Watson and Mr Edward Romblay were assaulted and badly wounded last week by some banditti armed with blunderbusses. The despatch mere ly says that tho victims were badly wounded, but gives no further particulars.

The German steamer Rio left Rio Janeyro on 29th ult., and arrived yesterday at Montevideo. The Pacific steamer Araucania left Rio on 30th and will be at Montevideo to-day.

Governor Roach and his Ministers took another run down to Ensenada yesterday. They breakfasted with Don Gregorio Torres and came back by the last train.

Monsieur Grau sent us word yesterday that he thoroughly agrees with the critic who said that the English and Germans are the best judges of French music in town, and he hopes to see them all to-night at the *last* representation of the 'Pre aux Clercs,' which will even excel the former, as several extra touches have been given to the 'mise en scene.'

ON 'CHANGE.

Oct. 3rd

Patacons	25.60
Cedulas A	99⅜
National Bank Shares..	121½
Old Gas Co. Shares	1,950$

There was remarkably little business done on Change to-day, and the average brokerage must be indeed small, for Bank Shares there was not even brokerage for two brokers. The gold market, as we noted last week, looks wicked; to-day no sellers save at rising rates and no buyers but at current prices, hence no business done, but the market looks far easier to rise than to fall, which is indeed suspicious as the very advent of the busy season.

Gold ruled uniform at 25.60; for cash 27,500 pats sold, and for Saturday 10,000 pats. Total day's business, 37,500 pats.

Cedulas are at a stand-still, but look more upward than otherwise; but 26,000 sold at 99¼ cash.

National Bank Shares are weak and flabby, 300 shares sold cash at 121½. For October there was a push to put up prices, opening at 123, rising to 123½, and closing at 123, and for end of year 50 shares sold at 120. The market has no animation and looks broken.

Old Gas Shares, one lot sold at 1,950.

The mails from London bring the news of the successful launching of the Argentine Pastoral Association, capital £100,000, shares £100 each. We believe the plan is of the new company are the Gainza lands.

The Villarino arrived at Patagones, splendid run down, on Saturday. The Minister is getting the Rosetti ready to take some 40 Welsh colonists down, who are now waiting in town for last six weeks.

As will be seen by telegram from Manchester, that market rules firm.

Some 200,000 sheep in partido of Bragado offered for sale.

Two important sales of wool on contract reported to-day, prices 75-81, both South wools and near a station. Contract prices for wool in the North 70 75 m/c, but the farmers will not contract at these prices, preferring to bring the wool to market.

News arrived from the South this morning the Salado rising and the waters nearly on a level with the railway bridge.

The death of Mr. Rich. Hargreaves, one of our oldest English residents, was announced to-day; deceased was much respected, and years ago had a hardware shop at the corner of Esmeralda and Rivadavia. He was 78 years of age and 66 years in this country. His funeral took place this afternoon.

The following distinguished wool buyers, arrived per Orenoque, were warmly welcomed on Change—

Mr Funck
Mr Bareille
Mr Bossu
Mr Corten

and Mr M Carnet, who comes as a lino buyer, the first we have as yet seen from Europe. We hope he will prove most successful in his purchases. Who a few years ago would have supposed that a lino buyer would so soon arrive from Europe; a few years more and we shall have sugar buyers arriving.

There was great demand on Change for Brazilian lottery tickets, prize 15 millions m/c, the tickets are scarce and difficult to get, and the drawing holds for 3 days but began to-day.

The sales at the ring were—
For cash 27,500 25.60
For Oct. 8th 10,000 25.60
Sales, 37,500.

Cedulas—
For cash A 26,000 99⅜
Nat. Bank Shares—
For cash 300 shares 121½-½-½
For Oct. 31st 2,050 shares 123-½-123
For Dec. 31st 50 shares 120
Sales, 2,400.
Old Gas Co. Shares—
For Oct. 9th 50 shares 1,950

At afterhours there was not much business done, gold ruled firm at 25.55, at which price four or two lots bought. A large purchase of 100,000 pats for end of year by a city tailor was spoken of amongst the brokers. The great harmless of gold to-day is attributed to the purchases for coupon money, but the business transacted on Change to-day was too small to represent coupon remittances, it is more probable that other agencies are at work and some of the heavy sellers on time last month, seeing little prospect of a fall and great risk, are now trying to cover their enormous descubierto sales.

Telegrams from Antwerp and from Havre were received to-day, they will be found in anchar column.

The sale of a large lot of wool, in store for the last two years, was reported to-day; the loss left on this business to the estanciero or holder is of course tremendous.

The dissolution of partnership of a well-known South Market wool firm was spoken of on 'Change.

Messrs Bullrich & Co. have effected the following sales—

The house Calle Estados Unidos 492, at $91.500 m/c.
Do do 496, at 71,500.
Do do 498, at 75,000.
Do do 502, at 122,000.
Buyer Mr D Felipe Plou.

One piece of land situated in Calle Santiago del Estero 448, at $156,000, buyer Mr Eleuterio Aguirre.

The house Calle Cordoba 652 to 656, corner of Montevid o 438 to 446, at $178,009, buyer Mr Manuel Ocampo.

The news from Spain is that a new line of steamers from Barcelona to the Plate has been at last started; capital subscribed and thousands of Spanish farmers waiting to emigrate to the Plate.

The Nat. Bank Share market ruled at afterhours very dull, shares offering for to-morrow at 121, and for end of month 122, no buyers. One of the most successful of our share speculators is down in Montevideo and expected up in the morning.

The German steamer Rio has entered from Hamburg with a splendid cargo.

Cedulas at afteshours ruled very quiet at 99¾. There were buyers of 20'000 for every month till next March at 100, not sold, still the new project has not put such new life into the stock as was anticipated, and it looks as if there will be no scarcity of Cedulas on the market if the new bill is passed.

The Leibnitz mails dates to 7th, will be up in the morning.

The Neva has on board the Chiarini circus for the Politeama.

Exchange offering American paper at 49⅝. Merchants say that the market is now so well supplied with exchange the Provincial Bank will probably soon stop drawing.

The sale of the Dorrego wool from the north on contract was reported to-day, price 75 on estancia.

It was rumoured on Change that the *Pampa* has received a telegram from London to-day with important news.

Messrs Gowland & Co. sold yesterday the fine building site on Flores Road, near Almagro, at from $2,200 to 1,600 vara front.

We learn from a leading exporter that since September 5th the Bank of England rate is 4½ o/o.

Mr R d'Hunval was welcomed on Change; he is the manager of the estancia Puesto Grande de Moujan [Sud]; he says the camp in the Banda Oriental are splendid, particularly near Paysandu; much thistles.

Parties who left town yesterday morning for estancias beyond the Salado the other side of Lobos returned to-day, being unable to cross the Salado it is so swollen.

There was nothing new on Change about the Chilian question. It seems the treaty will not be submitted until the Senate here approves it first. Some say that new matter respecting the treaty has arisen, owing to the change of the American Minister in Chile.

The liquidation closed to-day, everything paid, everything met. The two brokers who were placed in such jeopardy by the non payment of their clients arranged everything. It was perhaps, take it all in all, the greatest liquidation on record, and we congratulate the talented Bolsa liquidator, Sr Marzano on its conclusion, not a single error or mistake; verily Marzano is the right man in the right place. The differences paid were simply enormous, and estimated at over 500,000 fuertes, many of the speculators closed the month with a gain of from 50 to 80,000 pats; never before the Bolsa and its circle richer; it is estimated that within the last year the Bolsa and Bolsistas have made between Bank shares, Cedulas and gold 4 million fuertes, or say 100 millions paper.

The Sales at afterhours were—
Gold—
For Oct. 31st 40,000 at 25.60-65 buyers.
National Bank Shares—
For cash 300 shares at 122
For cash 150 shares at 121½
For Dec. 31st 1,800 shares at 122½-½-122
Sellers.
Cedulas A—
For Oct. 31st 30,000 99⅝
For Oct. 31st 20,000 at 99½
Market flat.

The following sales reported at the Plaza Once this morning:—
50 waggons with produce arrived.
960 ar. of wool arrived.
410 fan. wheat arrived.
Produce sales in general without variation.

The sales were—
950 ar. wool, Labarthe, 50
500 doz. sheepskins at 22½, 23, 24 rls.
Corderos at 18 rls.
Desechos at 18, 17½ rls.
438 doz. corderitos at 12-12-14
350 cow hides at 166
Becerros at 155
82 ar. hair at 140, 144, 150
Tallow, 7 bordalesas defective at 35
Maize, 450 fan. morocho and yellow, in grain, at 56, 54, 53, 52

The week has opened with good news from Europe about wool, good news from Chili about the treaty, and good news for the Mortgage Bank in the shape of the long looked for Government project to increase the Bank capital, which all say will greatly help the Bank and the Cedulas. The only alloy is the rather alarming state of the London money market, caused by continued heavy withdrawals of gold from the bank of England which, to judge by the tone of the London papers, caused an uneasiness in the London Stock Exchange, and a drop in all stocks including Consols. To remove or allay the uneasy feeling in London about the strong balance of trade against England and the decline of British industry, a very able letter from the pen of our brother M G Mulhall, has appeared in the *Economist* and we publish in another column this irrefutable letter, it deals with a subject to day the most vital in the British Empire. Spite, however, of the rather better tone of the letters by the mail as regards wool, there is an uneasy feeling in this market caused by the sudden dearness of money in the London money market. We have seen no telegrams giving any further change in the Bank of England rate, yet people on Change all say that money is at 5 o/o in London, which seems to us an error, since the Provincial Bank and the private banks, and many of the merchants would have received telegrams, had there been any such alteration in the rate.

We give in our supplemental sheet further details of the terrible loss of the s.s. Teuton, over two hundred lives lost.

The French steamer Senegal entered Lisbon from here on 23d ult. The Neva arrived at Bahia on 26th, and the Patagonia entered Lisbon from Plate on 22d ult.

The French packet Orenoque brought to Montevideo the Viscountess Maua, Sr Simon of the firm of Conceiçao & Co, Sr Pla and others.

According to last advices the river Uruguay is again rapidly rising.

The Orenoque brought a splendid cargo and a crowd of passengers, over 500. The following were the principal consignments of 6371 bultos for here and 64 for Rosario.

From Bordeaux—	
Devoto Brs.	300 bords wine
Teofilo Meyer	10
Juan Etchegaray	100
George Roux	100
Peters Freres	100
Chapin Lasalle	100
Carbe Dirube	250
P. Luro	50
Gustav Falconi	100
N Necol	200
Rocha hnos	200
B Bidart	100
Tarillan Cousin	349
From Rio Janeiro—	
Manuel Miro	40 sacks coffee
Marini & Co	250
P. E. Mathey	183
	144 saks sugar
Francisco Oliveira	22 rolls tobacco
	30 box do
Sequira Rosa	10 do
	385 sacks coffee

The sales of dry hides in the fortnight in Montevideo amounted to 107,328, stock 32,200 hides.

The great auction sale of sheep in Carmen de Arèco on the estancia of a well known Scotch farmer, we hear, strange to say amounted to nothing; we attribute this to want of properly advertizing the stock, we received no notice whatever of the sale, although 30,000 good mestiza sheep were put up not a single bid was made, which is indeed strange, now that we are so close to the shearing.

Messrs Lamport and Holt's steamer Pliny arrived early on Saturday morning from the Parana and sailed on Saturday night, having received the following cargo in 24 hours—

824 bales wool sheepskins
20 casks tallow
360 salted ox hides
3203 bags maize
16 live horses

This is about the quickest business in the line of engaging and taking in cargo on record and reflects much credit on the agent of the steamer and their ever active lancheros.

The sale of 3 leagues of splendid land at Guamini, on Arroyos Guamini and Venado, is reported at $155,000 m/c per league, English buyers.

The following real estate sales are reported yesterday at the escribanias:—

Partido of Belgrano, 17 mts. 320 front by 43 mts. 300 deep, for 3,500 m/c.
Tigre, partido of Las Conchas, 1,657 35 cts squaremetres, for 1,376 pats.

On Sunday at last our long silence with Europe was broken and we had telegrams up to Saturday night's date, let us hope that it will be a long time before the interruption will be so great. 13 days without news from Europe.

In wool contracts there is much going on, and the following prices they are paying outside for the best wools:—

Canuelas, 79
Chascomus, 75
Stations along—
Southern Railway, 75 to 80
North wool, 70 to 75

About 200,000 ar. new wool contracted for, which is but a small quantity at this time of the year. Should gold advance, as many think it will, then all wool purchases at present prices will leave handsome profits.

The new project to help the Mortgage Bank is the talk of all the Bolsa. We find the matter of such interest to the market that although not yet passed as law we translate it. The measure, if carried out, will extend the business of the Mortgage Bank immensely, and give the Bank an increased credit of a million fuertes at the Provincial Bank. We note, however, that strange to say there is not a word in the proposed bill declaring the Province of Buenos Aires responsible for the Cedulas, a most vital point, and which we were led to suppose would be the very first article of the new law. The Bank will, however, be enabled to sell the building and open offices for coupon payments in Europe, two most important points. As for giving Cedulas to Municipalities and opening offices in the Interior, it seems to many that the Bank would be just as well off without any such expansion. The following is the project:—

The Senate and Chamber &c.—

Art. 1—In addition to the operations allowed by the Organic Law of the Hypothecary Bank, said establishment may, with the consent of the Government, also enter into the following:—

1st—Financial arrangements to facilitate the negotiation and service of its Cedulas abroad.

2nd—Obtain credit at home or abroad to the amount of its working capital, with the view of increasing the value of its Cedulas or of rendering important services to the Province.

3rd—Organise Savings Banks, the statutes of which shall be submitted to the Legislature by the Government.

4th—Advance money for rural industry on mortgage, or on two signatures guaranteeing repayment and payment of the interest and amortization, under a special regulation to be approved by Government.

5th—Open credits for building purposes under special conditions and guarantees.

6th—Advance loans under the Organic Law to Municipalities, Corporations, and Governments legally authorised, provided they duly guarantee repayment and service, pledging ample security, which can be collected by the Bank direct or through the Government.

7th—Establish branches of the Bank outside the province.

8th—Advance loans for drainage in the camp, with due guarantee, but estimating the increased value which the works will give to the property.

Art. 2—All the real estate which the Provincial Bank at present holds as guarantee, or which it may hereafter acquire under Art. 50 of the Organic Law of the Hypothecary Bank shall be transferred to the latter, which shall hand the former Cedulas for the amount. The Provincial Bank shall exact this transfer from its debtors, and if these refuse, call up the loan in full, unless there be an agreement to the contrary previous to the passing of this law.

Art. 3—The balance arising from the liquidation of these properties shall be transferred to the account of the Provincial with the Hypothecary Bank, the form of the liquidation and transfer to be a matter of arrangement between both banks.

Art. 4—When leave is asked to redeem part of a mortgage, under Art. 15 of the Organic Law of the Hypothecary Bank, the Directors shall only grant it when the rest of the loan is sufficiently guaranteed, in which case they will determine how much of the property is to remain hypothecated for it.

Art. 5—To transfer a property mortgaged to the Bank, the latter's permission must first be obtained, stating the name and profession of the transferee, otherwise the first mortgagor will remain responsible.

Art. 6—The emission referred to in Art. 28 of the Organic Law of the Bank, must be understood to apply to the quarter or half year advanced.

Art. 7—When the Bank is unable to sell a property for the full amount due to it, it will take possession of it and receive the rent of it, putting it up for auction again when advisable. The rent received shall be applied to the payment of the overdue quarterly instalments and the repair of the property. The Justices of Peace shall put the Bank in legal possession of the property, by virtue of this present Article, and in accordance with the exceptions established in Art. 30 of the Organic Law.

Art 8—The Hypothecary Bank Directors can compromise with its debtors personally whenever they consider such a step advisable for the Bank's interests, but it can only be done by a unanimous vote of the full Board. The Directors shall keep a special register in which the terms of the arrangement must be entered and signed by all the Directors.

Art. 9—The Hypothecary Bank can sell its present premises, with the consent of the Government.

Art. 10—The Provincial Bank shall raise to 3,000,000 pats the amount granted by Art 48 of the Organic Law of the Hypothecary Bank.

Art. 11—The Provincial Bank shall not charge the Hypothecary Bank more than 6 o/o interest.

Art. 12—The branches of the Provincial Bank are the natural agents of Hypothecary Bank.

Art. 13—The Hypothecary Bank shall not make advances on mines or quarries, nor on property held in shares, unless the co-proprietors consent to transfer the whole as security.

Art. 14—When a theatre or place of pleasure is in question the loan must in no case exceed one third of its value.

Art 15—Let this be communicated.

URIBURU.

The gunboat Republica yesterday cast her anchors in port after having made a trial trip with her new boilers made in this country. The trial gave most satisfactory results.

The Committee named by the Provincial Government for the purpose of forming and managing the new stud farm and breeding establishment which will be situated at Santa Catulina, held its first meeting on Thursday. Don Mariano Demaria President, and Messrs Carlos Casares, Vidal Rodriguez, Moreno and Burgos were present. It was resolved to take advantage of Mr Newton's trip to Australia to study the industries of that country, and afterwards to select the animals best adapted for this country, and with which to start this new establishment.

The Finance Minister of the Province has addressed three notes to the Provincial Bank Board with the following orders:—

For the service of the Public Bonds created by law of July 6th, 1881, the Board will dispose of 8,780,000 m/c from the sum deposited in Bank for that purpose; for the service of the Riachuelo Loan the Bank will deliver to the President of the Board of Public Credit 3,875 pats gold from the funds received for Riachuelo port and wharf dues; the President of the Bank will order the following sums to be received from the Treasurer General and placed at the disposal of the President of the Board of Public Credit—442,701 pats and one real currency, and 2,386 pats for the service of the Public Bonds for the third quarterly paiment of the present year.

The flow of immigration which had been gradually declining in consequence of the late political strife [which in Europe is always examined through a powerful magnifying glass] seems to have reached bottom at last, and now, thanks to the peace and order which reign throughout the land, the arrivals of European immigrants is again rapidly on the increase. The Europa landed a thousand persons, and several other steamers are expected this month with large numbers more. It is very important news to hear that the majority of the new comers are agriculturists, which is the real stuff required for the progress of this country. Of the 1,000 arrived by the Europa 273 will immediately be sent up to Santa Fe and Cordoba. The C. Colombo, Nord America, and Genova are the next ships expected, each with large numbers of emigrants from Italy. The activity displayed in the Immigrant Department speaks volumes for the abilities of Don Samuel Navarro.

GRAN REMATE

De la hermosa casa-quinta Del Sr Dr. D. Amancio Pardo En un solo lote

Base de venta ps 375,000 m|c

Frente a la Estacion Caballito, F. C. del Oeste.

Esplendido parque ingles GRANDIOSA PELUZA

El remate se efectuara en la misma quinta

La mas grande, hermoso y variada coleccion de coniferos pinos, toyas y aromas.

Edificio elegante y comodo

El Domingo 23 de Octubre

A las 4 en punto de la tarde

Procederemos a vender por orden y cuenta del Sr Dr D Amancio Pardo, la famosa quinta arriba espresada, situada frente a la estacion y plaza del Caballito; al Sud-Oeste calle por medio con esplendidas propiedades de los Sres Zuberbuhler, Zorraquin, Niebuhr y D. Ventura Fernandez, al Norte con el Banco Nacional, y por el otro costado con los Srs Josbery, Orma y Olivera.

Esta renombrada quinta esta situada en la parte mas elevada en 30 leguas a la redonda de la ciudad de Buenos Aires, razon por lo que en este paraje jamas ha habido un caso de epidemia.

El Parque Ingles, en cuyo centro se encuentra la casa, se compone de una superficie de 47,000 vs cuadradas, y la base de venta por toda la gran quinta es la suma de 375,000 m|c en condiciones sumamente ventajosas para el comprador.

En ello se encuentran platas de un merito extraordinario, por su belleza y rareza. Un gran parque ingles, la mas vasta peluza, una coleccion de pinos, tuyas, aromos, la mas completa y hermosa que existe en el pais, y la fruta ha adquirido renombre.

El edificio perfectamente construido se compone de 6 grandes habitaciones comodas, ventiadas de gran altura, con una galeria de vidrios de colores al Sud, de abrir y cerrar adoptable a todas las estaciones, y al Norte una magnifico vestibulo. A estas habitaciones sigue un esplendido patio cercado de una pared y rejas de fierro altisimo, encuadrandolo de un lado y de otro cuatro habitaciones, cocina, letrina y todas construidas con buen material, maderas duras, ademas al lado de afuera hay tres habitaciones para quintero y sirvientes.

En una palabra, esto es necesario verse para formar juicio, por cuya razon, escusamos entrar en minuciosos detalles.

El jardin frutal es de lo mejor del pais, por la excelente calidad de su fruta, como asi mismo lo escogido de las legumbres.

Para ver el plano, como para cualquier otro dato, ocurrir a nuestra casa, San Martin 51.

La quinta esta a disposicion de los que quieran inspeccionarla.

Venta a Plazos

En nuestra casa San Martin No 51

El Miercoles 5 de Octubre

A las 2 en punto de la tarde

Venderemos al mejor precio y a plazos, por orden del Exmo. Gobierno de la Provincia de Santiago del Estero y con acuerdo de su Legislatura.

Cien leguas de campo, divididas en lotes de a cuatro, teniendo sin embargo el comprador derecho a tomar desde una hasta las cien.

El Gobierno de Santiago ha sido, como lo dicimos, autorizado por su Legislatura a vender esta gran zona de tierra, pero a objeto de facilitar la operacion, la venta se hara sin otro plano que el de la Provincia, por cuanto se da el derecho de ubicar donde se quiera, dentro de los limites de la misma.

Con este derecho cualquiera persona que este en el secreto de la situacion de un campo inmediato a la plaza principal, a las quintas contiguas a la ciudad o por sus alrededores, puede pedir su ubicacion alli mismo, como tambien los que conozcan donde existen los que puedan tener pastos de primera calidad aguas permanentes, montes, etc.

El Gobierno de Santiago no pretende con esta operacion hacer un negocio.—Su objeto se limita a fomentar el progreso de su Provincia, poniendo la tierra al alcance de todo el mundo, llamando asi a su centro la formacion de grandes establecimientos y la poblacion consiguiente.

A cada comprador se le dara un boleto con un numero de orden y en el cual se fijara un termino para pedir la ubicacion, de manera que el primera que compre, sea el primero que elija y asi sucesivamente.

Siendo la venta dentro del territorio de Santiage, ningun otro gobierno iniciara protesta a guna, lo que importara garantizar un titulo perfecto y libre de todo gravamen, habiendose resuelto que las escrituras se otorguen ante de oficina de un escribano de esta capital.

El pago se hara mitad al contado al estenderse la escritura y el resto a 6 y 12 meses en garantia del mismo campo.

En resumen—Jamas se ha puesto en venta un lote de tierra en iguales condiciones y desde hoy el publico debe preocuparse de averiguar en que punto pedir la ubicacion del numero de leguas que necesita para la plantacion de establecimientos de campo, ingenios etc.

No obstante de tener, aqui en Buenos Aires un apoderado general el Gobierno de Santiago nosotros daremos mas pormenores en nuestra casa San Martin 51.

Y han sido recientemente practicadas espresamente para vender, por cuya razon son tan bajas, llamando en consecuencia la atencion de los especuladores pichincheros, y demas que andan a la pesca de las oportunidades para efectuar compras de ocasion.

El barrio Sud toma cada dia mayor incremento, las mas importantes obras nacionales se haran indudablemente en este costado, y el valor de todas estas propiedades se acrecentara rapidamente. El Campo de Mario esta ya decidido se haga en la quinta de Diehl. La Escuela de Artes y Oficios en la calle de Brasil y Mathen, el Hospital Frances, el Parque, depositos, cuarteles y muchos otros importantes edificios entre los cuales estaran dos ministerios nacionales, todas estas obras que dentro de breve tiempo adornaran la Capital haran quintuplicar el valor de la propiedad territorial, y es ya notorio el aumento de estos valores.

No hay, pues, mejor caja de ahorros ni Banco que de mejores interes, que emplear las economias en terrenos centricos que, como estos, poseen gas, tramways, aguas corrientes, empedrados, etc.

Los titulos son inmejarables, por planos y otros datos, ocurrir San Martin 51.

Estos campos lindan con los del Sr. Dr. Don Diego de Alvear, herederos de Urquiza, Armstrong y otros distando unicamente 12 leguas del Pergamino que sera cabeza del Ramal del Ferro-Carril del Oeste y que estara abierto al publico en Junio del año entrante, asi que podrá llegarse en el dia a estos campos.

Su calidad es muy superior a los famosos campos del Venado Tuerto que estan mas distantes, y que fueron vendidos a 200,000 pesos termino media la legua.

Creemos escusado entrar en mas detalles y recomendaciones sobre la bondad y el valor de estos campos; mencionaremos unicamente que en estos dias han ofrecido por los campos de la testamentaria de Alcorta que distan seis leguas de estos, 300,000 pesos por legua.

STATE OF IRELAND.

Much excitement—says our correspondent—was caused in Dublin to-day (Friday) by reports from Cork that a fatal affray had occurred near Mill Street, in that county, last night. The facts of the case, so far as at present known, are that an armed party was engaged in visiting houses for the purpose of seizing arms. Their intentions having been discovered by the police, a patrol, under command of Captain Plunket, R.M., turned out as the raiders were effecting an entrance into the house of Mr Pomeroy, in search of arms. Some of the police arrived on a car, when they were received with a volley, one policeman being seriously wounded. The main body of police then came upon the scene, and returned the fire. It is stated that a farmer's son, named Hickey, was shot dead, and that some others were wounded. Four men have been arrested. The part of the County Cork in which this affray occurred has for some time been regarded by the authorities as in an unsettled state. The property of Sir George Colthurst, upon the tenants of which an attack was some days ago made by an armed and disguised band, is in the district. Later particulars, received from Cork, state that the affray was a sequel to the many raids for arms made in the Mill Street district recently. The police are reticent as to the details of the occurrence, but it is known that last night, about nine o'clock, information reached the local barracks that a raid for arms was about to be made by a band of armed men upon the house of Mr. Pomeroy, of Claragh. The head constable, in charge at the barracks, immediately sent a party of men to the scene, and communicated with the sub-inspectors and Captain Plunket, resident magistrate, who followed with an extra force of constabulary. One of the police parties took the wrong road, and thus missed what are known in the country as the Moonlights or disguised men. The other party, upon arrival at Mr. Pomeroy's house, were put into possession of all facts as to the appearance of the raiders known and the direction which they had taken. The police followed the armed party, and, on coming up to them, called upon them to stand. The answer was a volley from rifles and revolvers. One of the policemen was severely wounded in the arm. The volley was repeated, and the raiders made off. The police, subsequently patrolling the neighbouring ground, fired upon a man supposed to belong to the raiding party. He was killed instantaneously, a charge of buckshot entering his left side and a bullet his temple. The deceased lies in an outhouse belonging to Mr. Pomeroy. An inquest will, of course, be held.

Our Cork correspondent states: The facts of the shooting cases at Mill Street last Thursday night, as far as they have been ascertained, are as follows: Acting on information received, that a raid had been made for arms on the house of Mr Pomeroy, at Claragh, a few miles outside Mill Street, a force of police, under two sub-inspectors and Capt. Plunket, R.M., proceeded there. A car, with three policemen, brought up the rear; but the whole party, with the exception of the last on the car, took the wrong road, whether intentionally or not, and, therefore, missed what are commonly termed the moonlights, or disguised party. Immediately the police on the car arrived at the house, they were put in possession of whatever facts were known as to the appearance of the raiders, also the direction taken The police followed immediately, and overtook them in the lawn, and called on them to stand. The response was a volley from rifles and revolvers, which was repeated again and again, one of the policemen being severely injured in the arm. The police, fearing they would be shot down before assistance arrived, determined to show fight, but the raiders had decamped. The police then patrolled the grounds, and came upon one man in a state of intoxication, and fearing a repetition of their former reception, fired at him, killing him instantaneously. One charge of buckshot entered his left side, and a bullet his temple. Medical assistance was immediately called, but was of no avail. The deceased lies in an outhouse belonging to Mr Pomeroy, pending an inquest. Four arrests have been made, the prisoners being remanded for further evidence.

The police yesterday visited the farmyards of several farmers in the neighbourhood of Woodsgift, Kilkenny, is search for the corn mysteriously removed during the night from the farm on which the Emergency men were working. The police seized a large quantity of corn, and upwards of twenty men will be summoned for being connected with the raid.

A number of labourers who have been working on 'Boycotted' farms with Emergency men in the neighbourhood, were attacked by a mob at Lismore yesterday. But for the interference of the police, they would have been severely beaten. About seventeen of the ringleaders of the mob have been summoned.

A Tullamore telegram states that the tenants on the estate of the Marquis of Downshire, at Edenderry, held a meeting yesterday, at which they decided on demanding an abatement of 25 per cent on their rents. This demand having been refused, the tenants, some of whom hold three years' rent, went away without paying any money.

The Killukin branch of the Land League has expelled a member for cutting grass on Conacre meadow, on the estate of Mr T Y L Kirkwood, J.P. Threatening notices had been posted warning any person who cut the meadow that he would be shot.

THE LOSS OF THE TEUTON.

MESSAGE FROM THE QUEEN.

SEARCH FOR THE MISSING BOAT.

Her Most Gracious Majesty the Queen has telegraphed through the Colonial Office to the Secretary of the Union Steamship Company asking for further information relative to the loss of the steamship Teuton.

The Union Steamship Company have received the following message from Cape town, dated September 2, 1.10 p.m.:

"Danube returned midnight Thursday, after cruising, but found nothing whatever. It is now known that the boat supposed to be afloat was subsequently swamped. Dido still out."

The company's agent further telegraphs, in reply to instructions sent from London, that everything possible is being done to allay the sufferings of the survivors.

A Plymouth correspondent telegraphs: "When the news of the loss of the Teuton was received at St. Ives, great excitement was caused, as it appears two young men, named Gyles Oliver and H. T. Crouch, belonging to that town, had taken passage for Port Elizabeth in the ill-fated steamer. Their names do not appear in the list of the saved, and it is feared they have perished. Mr Oliver has left a wife and one child. Mr Roberts, one of the saved, is believed to be Mr Samuel Roberts, shipwright, of Penzance, as he was certainly on board the Teuton on her last voyage. He was the son of Mr Michael Roberts, a well-known taxidermist."

Our correspondent at Southampton telegraphed last night:

"The excitement here concerning the loss of the Teuton remains unabated, and the absence of any further news concerning missing members of the crew has proved a cruel disappointment to those who had husbands and other relatives and friends on board the ill-fated vessel. The Mayor, Mr Cooksey, J. P., is absent from the town, at the head of a deputation which has been down to York to confirm the invitation given last year at Swansea to the British Association to hold their meeting in 1882 at South ampton; but his worship telegraphed from Scarborough this afternoon to the Town Clerk expressing his deep sympathy with the widows and others who have been bereaved by the disaster, and directing that steps be at once taken to convene a public meeting for Tuesday next with the object of raising a fund for the relief of the sufferers. This prompt action of his worship is much commended. The Mayor, in this respect, is only following the examples set in the cases of the loss of the Amazon, the Rhone and Wye, and the Normandy, in each of which a permanent fund was formed which the Town Clerk administers under the direction of permanent trustees, and there are many widows and orphans yet chargeable upon it, even though the burning of the Amazon occurred nearly thirty years ago. A fund was also raised upon the loss of the Union Company's steamer European, in the Bay of Biscay, three years since, but that disaster, happily, was unaccompanied by any loss of life, and the money was appropriated to relieving the immediate wants of the seamen and their families, and replacing their effects which had been lost in the ship. Captain Manning, master of the Teuton, was not, as previously stated, the son of a well-known physician at Salisbury, but he was a brother of Dr Manning, of Laverstock, near the city. His father, who is now very aged, is a retired merchant living at Maitland Park, Haverstockhill, London. His mother died about two years since. He was the youngest son in a family of five children. The sympathetic message from the Queen has given great satisfaction. No telegram has been received by any one in Southampton direct from any of the survivors; but a brother of Mr Forder, the second officer, yesterday sent a message to his father from Pietermaritzburg announcing the loss of the Teuton, and that 'Charley' had been saved. The doors of the office of the Union Company have been all day thronged by anxious inquirers, but though every courtesy is displayed by the officials, only one answer could be given, viz., that there was no further news to communicate—a reply which has sent many a newly-made widow away with tearful eyes and sorrowful heart.'

ROUGHING IT IN THE COLONIES.—There can be no doubt that a man has to put up with many little inconveniences when he settles in a new country; some of them arising from 'the necessity of things,' whilst others are the result of his own want of knowledge or foresight. However, if he can secure pure water and good bread he will manage to get along tolerably well. Thanks to the advance of chemical science, this last desideratum is not so difficult to obtain as in times past, for with a good supply of BORWICK'S BAKING POWDER, even Robinson Crusoe himself might have produced the whitest and most palatable of bread, to say nothing of cakes and pastry *ad libitum*, and would doubtless have ended by opening a pastry-cook's shop upon his desert island. NOTA BENE.—Don't forget to ask your storekeeper to put up a good supply of this valuable article with your groceries. In packets, 1d, and 2d.; boxes, 6d. and 1s. each.

MALTINE.

(Extract of Malted Barley, Wheat and Oats.)

The Original and only Reparative Composed of these three Cereals.

MALTINE is a highly concentrated extract of malted Barley, malted Wheat, and malted Oats, containing, undiminished and unimpaired, all the nutritious principles that can be extracted from these cereals. By the most carefully conducted scientific process we are enabled to offer a perfect article, possessing five to ten times the beneficial and nutritive merit of any alcoholic or fermented Extract of Malt.

"WHEAT and OATS are especially rich in muscular and fat-producing elements."—Liebig.

MALTINE will increase both weight and flesh in most persons of thin habit.

MALTINE is particularly recommended for delicate Females and for weak and debilitated Children and Infants.

For Deficient Lactation, and for Mothers whilst Nursing, MALTINE is especially recommended.

MALTINE is the most important combination for use in Constipation.

MALTINE is entirely free from all products of Fermentation, such as Alcohol and Carbonic Acid Gas.

MALTINE is very palatable and pleasant, and will be readily taken by the youngest child.

The Compounds of Maltine

Can undoubtedly be used with greater success than any other remedy now known in diseases of General and Nervous Debility, Indigestion, Imperfect Nutrition, and Deficient Lactation; Cholera Infantum and Wasting Diseases of Children and Adult; Convalescence from Fevers, and whenever it is necessary to increase the vital forces and build up the system.

For Consumption and Wasting Diseases

MALTINE with Cod Liver Oil—The most perfect emulsion and most agreeable and effective mode of administering this nauseous but valuable Oil yet discovered.

MALTINE with Hypophosphites.—This preparation is specially indicated in Consumption, Rickets, and deficient Ossification.

MALTO-YERBINE.—A most palatable and efficacious remedy and substitute for Cod Liver Oil in the treatment of Consumption and Wasting Diseases; also the most perfect remedy yet produced in Chronic Pulmonary Affections, Coughs and Colds.

HOWARD'S IMPROVED AMERICAN PLOUGHS

The above represents the well known 'Eagle 75' Plough which, and other sizes, are manufactured by J. & F. HOWARD in the highest style of workmanship, and tens of thousands are in use. Several manifest improvements have been introduced. As shown in the engraving, the body clips the beam, and the 'centre draught' is also taken from the strongest part of the iron body,—thus giving an additional security against the beam breaking at the bolt holes—a very common occurrence with American made Ploughs.

The beam is made of Oak, and can if required be fitted with a steel plate on each side.

The shares are hardened upon J. & F. HOWARD'S well known patented *water-chill* process, which renders them not only tough and hard, but ensures their wearing better and longer than made when by any other process.

Prices of the various sizes, Nos. 19, 19½, 25, 26, 55, 75, &c., sent on application.

The above Implements kept in Stock by the Principal Hardware Merchants.

Carlow Lay College
AND
ST. MARY'S PREPARATORY SCHOOL
Knockbeg, Queen's County.

In Carlow Lay College students are prepared for the various professions, and for Degrees in Arts in the University of London.

Amongst Catholic Colleges, Carlow ranks next to Ushaw and Stoneyhurst in the number of her students who are graduates and undergraduates of the London University. An Examiner from the University of London holds Examinations in Carlow College, to confer Degrees in Arts.

There is a special class under a competent master to prepare students for commercial life, and no exertion is spared to secure the progress of the pupils in the junior classes.

The College is healthfully situated in a park of six acres, which forms extensive recreation grounds for the students.

TERMS:

Pension, including all extras, 35 guineas per annum.

Pension, exclusive of extras, 30 guineas.

St. Mary's Preparatory School

In connection with Carlow Lay College, the Preparatory School of St. Mary's, for Children from eight to twelve years of age, has been re-opened.

Rector—Rev. William P Bourke.

Matron and Professor of French and Music—Miss Finneran.

English Master—Mr P Harnett.

The School is strictly and purposely limited to children of such age, in order that they may be totally separated from the grown boys, and may have all the advantages of minute attention which their tender years require.

The children at St. Mary's are under the special care of the matron, and the rector takes charge of their religious instruction.

TERMS:

Pension, including all extras, 35 guineas per annum.

Pension, exclusive of extras, £30.

Dysentery, Cholera, Fever, Ague, Coughs, Colds, &c.

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr.[r] J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London. "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, DR. COLLIS BROWNE'S CHLORODYNE, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleratic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.
